CERAMIC SANDING BELT 681040148024

NEW

New in our range: Ceramic sanding belts

These sanding belts (currently only available in Grain 24) last much longer than the traditional sanding belts. Due to the ceramic grains in the abrasive belts, they remove more material and last longer. Ideal for hard materials such as rubber or other materials with a high shore density. Other grain sizes and strengths are available on request.

40x1480 - 40x1650
100x1480 - 100x1650
