

# ORTHOPEDIC SHOE TECHNOLOGY

## TEXON 437

NEW

### New in our range of orthopedic shoe technology!

Texon 437 is a high quality cellulose insole material for shoes. It is used as a reinforcing layer between the outer sole and the insole. The advantage of Cellulose is that the material can absorb a high amount of moisture, which leads to an increased comfort in your shoes. Available in sheets (3mm thickness) of 1.5m<sup>2</sup> or cut into the desired shape.
