"DECLARATION OF CONFORMITY"

For materials, who are used for the production of a medical product, the medical product law (directive 93/42/CEE) asks for an official written declaration of agreement, and acceptance of unsuspectingness concerning:

- TOXICOLOGY
- CANCER CAUSES INVESTIGATION

Toxicology : NO materials may be used, causing allergic reactions
cancer causes investigation : NO materials may be used, recognized as cancer causing elements

EVA, CORK, STIFFENING MATERIALS, SHOCK ABSORBING MATERIALS, THERMOPLASTICS, AS WELL AS SYNTHETIC COVER MATERIALS, are fully confirmed with the prescriptions and tested by independent laboratories. The materials are free of toxic and cancer causing elements.

As manufacturer of orthopaedic finished products, you should do your best to take care of the inserted materials. Information about the composition of the raw materials, supplied by the raw material manufacturers are available.

We hope, we served you with this statement

Best regards,

Speelmans Christophe
